Oyster 799-CAGE Instructions

The 799-CAGE is a stainless steel sink weight and cage for the Oyster series sensor. To install the sensor follow the instructions below.

1. Remove the shipping cap from the sensor.
2. Lay the 799-CAGE on its side.
3. Slide the sensor into the 1" hole of the fitting nut.
4. Align the end of the sensor with the bottom edge of the fitting.
5. Tighten the two set screws until contact then tighten an additional 1/4" turn with allen wrench provided.
6. The 799-CAGE with sensor is now ready to install in your system.
